## INTRODUCTION

Welcome to the first edition of the SCA Affiliation Register. This may perhaps be well overdue however after much debate and careful consideration the National Executive have decided to produce and distribute this paper for the benefit and use of all. Many thanks to our own Mike Jakins for the hours he has committed to its production, with the assistance of our associates CLAIR (Japan), SCNZ (New Zealand), SCI (United States), CPAFFC (China), GAOK (Sth. Korea), WA Municipal Association and various other sources.

In 2015 a new SCA Executive was elected at the National Conference in Blacktown NSW and since then many changes have taken place, not the least of which has been the forced amalgamations of Councils in NSW. The

ramifications from this may impact many within the Sister City fraternity and it is yet to be determined as to the new beginnings that may arise from this. May I impress upon all that whatever SCA is prepared to play a role in ensuring that existing connections are maintained and hopefully new links fostered.

The current state of play in World affairs points to the role of SCA gaining more importance in working toward World Peace and hopefully through the forging of new relationships this may enhance the standing of the importance placed upon working with our neighbours.

Perhaps the most surprising fact that may impact many reading this register is the sheer number of links that have been made throughout the World by so many diverse towns and cities within Australia. One need remember that linking between towns or cities is not new as the practice has been around since Biblical times, however the first recorded Western link was in 836AD between Paderborn in Germany and Le Mans in France.

Whilst there may have been changes to the current operations of many of these affiliations and a greater emphasis in recent times on the economic element the tenet of relationships is still, and perhaps always will be, making friends and being good neighbours. When there have been disasters, regardless of where, Sister Cities partners have always been there to provide assistance and I cannot see that ever changing. Please utilise the information within this register to enlighten and educate more individuals on the enormous reach of this wonderful movement.

Whilst the information within this paper has been prepared with the utmost good faith there will may be omissions or errors and we would ask that you make contact with the author (details on page 6) with any required changes to ensure it is as accurate as possible.

## SISTER CITIES AUSTRALIA – AN OVERVIEW

As the name denotes, Sister Cities Australia Inc. (SCA) is an association of cities, towns, shires, ports and even states that have a Sister City relationship. SCA also takes a role in matching cities and towns in Australia with cities and towns both from overseas and within Australia seeking a sister city relationship. SCA is also the link between an Australian sister city or town and the many projects and ideas that have been experienced here and abroad.

Many cities, municipalities and shires in Australia have at least one sister city relationship with a city or town overseas, or within Australia with many have multiple affiliations.

The objective of Sister Cities Australia is to provide an umbrella of support and to promote these affiliations. SCA also aims to provide a forum for cultural, economic and educational interchange between communities and to encourage friendship, co-operation and understanding to improve peaceful co-existence worldwide.

### *Origins of the Sister Cities Movement...*

Sister city activities were independently commenced on many different continents, but all had the same goal, to help develop enduring networks of communication between the cities of the world to cut across boundaries and reduce the likelihood of polarization and conflict among nations. President Eisenhower's People to People program, which began in America in 1956, gave a huge boost to the concept of twinned cities. Some linkages occurred before that, but the Civic Committee of People to People (one of 40 People to People committees) which promoted town affiliations, eventually became Sister Cities International in 1974.

Because sister city programs were initiated at the national level in many different countries during the same time period, approaches as to how the program would be structured and function varied. In Europe, the program enjoys great popularity and involves thousands of cities of all sizes linked with two, three and more partners. This is often known as twinning or twin cities. The links tend to be very formal with resolutions establishing them accompanied by documents of agreement detailing the type of exchanges to be undertaken. In many countries links have to be approved by the national government.

In Australia, the appeal of 'international understanding and friendship' has been attractive to community affiliations with Coventry in England that originated in 1939. A relationship was established between Saddleworth in South Australia and Saddleworth Parish in the United Kingdom in 1941, while one has existed officially between Hunters Hill and Henley-on-Thames since 1950, and one between Bega, New South Wales, and Lyttleton, Colorado, United States of America, since 1956. Today Australian cities and towns have over 500 sister city affiliations throughout the world and this number increases every year.

### *History of Sister Cities Australia...*

(Formerly the Australian Sister Cities Association Inc.)

In 1978 a group of like-minded people in Australia became aware that in the United States of America sister cities across that nation came together annually to discuss matters of mutual interest and benefit. Research disclosed that there appeared to be at least twenty-six sister city affiliations throughout Australia, but there was no interchange between them. They proposed to bring these cities together. The Newcastle Sister City Committee agreed and hosted the first Sister City Convention in September 1979.

It was decided at this convention that sister city conventions should continue on a regular basis. A committee was formed at the Goulburn Convention in 1980 to consider the drafting of a constitution to enable delegates

at the next convention, to be held in Hobart, to discuss whether a formal organisation was desirable. A second committee was appointed to refine the document for further consideration.

A general meeting of the proposed Australian Affiliated and Sister Cities Association was held on Wednesday, 29 September 1982, in Alice Springs and adopted an amended constitution, altered the name to the Australian Sister Cities Association and elected its first Executive Committee. Since then a conference has been hosted annually by different cities which have applied to be hosts.

Further conventions, later to be called conferences, have been held in Townsville in 1983, Bega in 1984, Albury in 1985, back to Hobart in 1986. Lake Macquarie in 1987, Cairns in 1988, Shepparton in 1989, Darwin in 1990, Devonport in 1991, Penrith in 1992, Broken Hill in 1993, Belmont in 1994, Hobsons Bay in 1995, Cairns again in 1996, Hobart in 1997, Port Stephens in 1998, Darwin again in 1999, and in Adelaide for the first time in South Australia in the year 2000. Bunbury-Busselton hosted in 2001, Bendigo in 2002, Orange in 2003, Noosa in 2004, Latrobe in 2005, Devonport again in 2006, Darwin once again in 2007, Gosford in 2008, Tamworth 2009, Rockhampton in 2010, Toowoomba in 2011, Devonport in 2012, Broken Hill in 2013, Bunbury in 2014, Blacktown in 2015, no conference held in 2016.

## SISTER CITIES AUSTRALIA COMMITTEE

Sister Cities Australia is managed by a committee of duly elected financial members of SCA whose role it is to ensure that the aims and constitution of the organisation are met in line with the expectations of its members. The committee has a wealth of experience and expertise and they are always more than happy to share, assist and encourage any or all activities involved with sister city relationships – from seeding a new affiliation through to helping celebrate milestones and achievements.

The committee also provides: guidance to councils hosting the annual conference; oversight of the annual National Awards Program; a two-monthly newsletter to all member councils and their contacts; linkages to similar organisations overseas, such as Sister Cities International and Sister Cities New Zealand; liaison with peak bodies such as CLAIR (Council of Local Authorities for International Relations), CPAFFC (Chinese People's Association for Friendship with Foreign Countries) and others who promote sister city relationships.

## SCA AFFILIATIONS DIRECTORY

The affiliations directory on the following pages has been created by Sister Cities Australia based on information provided to it by member Councils, by researching the Internet and other salient sources. It lists the sister city affiliations that are currently identified as being in existence in Australia with overseas cities and also with other Australian cities. There are also separate lists of Sister Port and Sister State affiliations that have also been established.

The directory has been compiled from data made available to Sister Cities Australia and is set up to allow easy viewing of Australian affiliations by State, those wholly within Australia, and also by Overseas Country.

I hope you find this useful as a resource, and should you notice any incorrect information or you can add details to the list then please send an email to the editor, [mike.jakins@sistercitiesaustralia.com](mailto:mike.jakins@sistercitiesaustralia.com).
